For your information. What exactly is insured:

Included are atmospheric influences, which cause a threat to life or physical condition of the spectators or participants (in case of Storm the wind movement must have a strength of at least 8 according to the Beaufort scale) with the result that the festival

- a) cannot take place
- b) has to be terminated earlier
- c) has to be postponed to another date
- d) or has to be temporarily interrupted

Co-insured is the Cancellation or postponement of the event in case the planned assembly was impossible or delayed or the planned use of the event location became impossible due to the weather conditions.

The event location is defined as the entire areal which the organizer needs to use to realize the festival.
